

### **Remarks**

This is intended to be a complete response to the Restriction Requirement mailed December 21, 2006.

Applicant's hereby elect claims 1-5 of Group I and cancel claims 6-29 of Group II without prejudice.

Claims 1-5 have been amended, and new dependent claims 30-32 have been added herewith. The claims are now directed to a carbon nanotube composition comprising both a CoMo catalyst and single walled nanotubes disposed thereon. Claim 1 has been amended to indicate that the majority of the Co in the catalyst initially occurs as  $\text{CoMoO}_4$ . This is supported in the specification for example in paragraph 0056, and paragraph 0060, and Fig. 4.

Respectfully submitted,

Christopher W. Corbett, Reg. No. 36,109
